August 5 Next Water Board Meeting

@ 10:00 am

Upcoming Water Board Meetings -October 7th

Help Reduce water at home by...

Use drip irrigation system for bedded plants, trees, or shrubs and use low-angle sprinklers for Lawn's. Use the garbage disposal sparingly, Compost instead and save gallons every time. Time your showers to keep it at 5 minutes, you can save 1,000 gallons a month.

The Waterboard will be starting an inventory sheet showing what type of pipe runs from the customer side of meter to your residence. This has to do with the lead and copper revisions.

On Line Payments are available. Send your account info to bcrwsc@aol.com or contact Anita Clark at the water board office
