Tips for Water Conversation at Home

As much as 80% of domestic water usage occurs outside the home on lawns and gardens. Adjust your irrigation timer, most efficient time to water is in the morning or late evenings.

Turn off water when brushing your teeth or shaving. You can save 8 gallons of water a day.

Consider a shower instead of a bath, an average shower uses around 10 to 25 gallons of water per shower.

Skip the garbage disposal, compost instead.

Meeting
Reminder!

Our next meeting will be on October 7, 2023, at 10:00 AM this meeting will kick off the election process. If you want to be involved in the community, consider joining the water board. Positions that are up for re-election are Vice President, Treasurer, and 3 members at large.

Be on the lookout for an updated website.
