Completed**

**June 7, 2025-Completed**

**September 6, 2025**

**December 6, 2025**

Did you know:

**Water is Essential for everyday life, we can start with the easy things such as below:**

Water efficiency is the smart use of our water resources through water-saving technologies and simple steps we can all take around the house. Using water efficiently will help save water, save money on your utility bills, and ensure reliable water supplies today and for future generations..

### Save Energy

It takes a lot of energy to deliver and treat the water you use every day for bathing, shaving, cooking, and cleaning. Homes with electric water heaters, for example, spend one-quarter of their electric bill just to heat water. As an example, letting your faucet run for five minutes uses about as much energy as letting a 60-watt light bulb run for 14 hours.

## DON'T FORGET

**September 6<sup>th</sup> is the next WaterBoard meeting @10:00**

Everyone should have received their copy of the CCR, if you have not please contact Anita at the office.

### What is a CCR

The EPA requires community water systems to deliver a Consumer Confidence Report, also known as an annual drinking water quality report, to their customers. These reports provide Americans information about their local drinking water quality.

## \*\*Reminder\*\*

**With the new water rates, those of you who have checks issued by the bank need to have the bank update the amount.**

### New Rates:

**\$64.00 for the first 2,000 gallons, \$30.00 for every 1,000 gallons after that. Standby rate will be \$20.00**

If you would like your invoice emailed each month, please send an email to [bcrwsc@aol.com](mailto:bcrwsc@aol.com) to let Anita know and include your account number.
