**Water is essential for health, work, and the environment.**

Did you know:

**What are the strategies for water conservation? This involves implementing strategies to use water more efficiently and reduce wastage across various sectors, including agriculture, industry, and households.**

**How Do I Conserve Water During the Winter?**

Check for leaks after any thaws. A change in temperature can cause pipes to expand and contract, which may lead to more leaks.

Install a water monitoring system. These read the water meter and allow you to assess your water consumption down to the hour. They also give you leak alerts, which can be a great help in preventing pipe bursts

**March 1, 2024 @ 10:00 AM**

**President, Secretary, and 3 members at large. Are up for re-election.**
