Lori Eilers

Mary Porter

Save Texas Water

Water Conservation is the practice of using water efficiently to reduce unnecessary water usage.

Fresh water is a limited resource that can also be costly.

Conserving water also saves energy and helps the environment.

Did you know a healthy lawn needs less water!

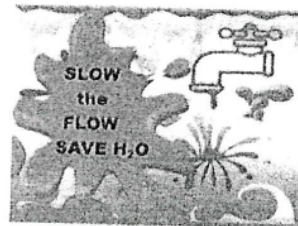

Keep a bottle or pitcher of water in your fridge, as the water usually comes out warm from the tap this is so you don't have to run your faucet to cool the water off before getting a glass of cool water.

Our first meeting of the year is May 4<sup>th</sup> @ 10:00 AM come see what we are up to.

Next Meeting Date:

August 3<sup>rd</sup>

## Neighborhood News

You will be receiving a form to fill out to update your existing information on file, it will be in with your invoices.

We will also be updating the bylaws in the upcoming weeks, once we have proposed the new updates, we will send them out for your review.

if you would like your invoice emailed each month, please send an email to [bcrwsc@aol.com](mailto:bcrwsc@aol.com) to let Anita know and include your account number.
